Pretty Makeup for Every Style!

Leslie Blodgett of Bare Escentuals shows you how!

A pretty palette of pink makes Jessica Biel's look timeless.

Classic

1. Smooth an illuminating, perfecting foundation like **Rimmel Recover in True Ivory** (\$8, Wal-Mart) all over your face, focusing on any dark circles under the eye. Brush on a layer of mascara and run a clear brow gel through eyebrows for a groomed but natural look.

2. Brush i.d. **bareMinerals Blush in Beauty** (\$18, 800-227-3990)

on the apples of the cheeks, sweeping the color up toward the eyes.

3. Complete the look with the perfect lip: A few swipes of **Neutrogena MoistureShine Lip Soother in Glisten** (\$6.99, drugstores) will give you a gorgeous, healthy shine with just a hint of color.

Make Your Makeup *Last!*

- **OPT FOR OIL-FREE** These foundations and concealers have a dryer consistency and won't slip off your face as you dance (and sweat!).
- **PILE IT ON** Apply eye and lip colors in thin layers

for intensity and staying power.

- **SET IT AND FORGET IT** Finish with powder or a setting spray (Try **Model in a Bottle**, \$18, modelinabottle.com).
